

Programme Specific Outcome (PSO)

PSO 01: Integrated Design Solutions

Graduates from IDEAS will be able to comprehend and analyse impact of their Design based on the study and analysis of multiple theoretical, social, political, economic, cultural, and environmental contexts.

PSO 02: Creative skills and knowledge with exposure to allied fields

Graduates will be able to use, implement and experiment in diverse creative fields to achieve a humanitarian and a relevant status in society and nation building.

PSO 03: Team working with various consultants and agencies

Graduates will develop the skill to collaboratively lead teams of stakeholders in the process of conceiving, developing and implementing solutions to issues in the built and natural environments

PSO 04: Professional practice with ethical and societal concerns

Graduates from IDEAS shall understand professional practice of architecture, including management, and the need to act legally, ethically, and critically for the good of the client, society, the public and the environment.
