BRIDGE COURSE 2018-2019

ACCE WORKSHOP REPORT

The workshop was conducted as per schedule, all the members of ACCE completely supported the event to provide their valuable knowledge in different level of constructions whether it is material lab testing, Surveying practical or site visits. Each lecture conducted and field visit provided students a different experience to clarify their knowledge about any construction and points to be considered while designing a structure.

The 6 days' workshop where all areas of construction process were explored through lectures and site visits. Sessions were very interactive, all the speakers (ACCE members) tried to come down to students understanding level and introduced very difficult aspects in very simple manner. We appreciate special efforts by Er. Satish Raipure sir and Er. Sumant Mundle sir for conducting the workshop in wonderful manner by introducing all the experts. They shared a very valuable knowledge of constructions through there field experience. Visit to material testing lab at Geotech was very useful for students and site visit was also a valuable experience for students.

It was wonderful and smoothly conducted event by ACCE members. Our Students have learnt a lot through this workshop and enjoyed it simultaneously.
